

Just That Good

Jon Reddick

Fear sees an army
Doubt sees the sea
But faith says he's making a way through for me
Tomorrow is hidden but yesterday tells the story of how his love never fails
The story of how he never fails

I know that my God is strong and able
To do what he said he would
He'll do what he said he would
Oh my God can only be faithful
Jesus is just that good
You have been just that good to me
You have been just that good to me
Just that good

If this not been worked out
You're not finished yet
Nothing is impossible if you promised it
When it looks like it's over
It's still not too late
There's no evidence that's [?] than the empty grave

I know that my God is strong and able
To do what he said he would
He'll do what he said he would
Oh my God can only be faithful
Jesus is just that good
You have been just that good to me
You have been just that good to me
Just that good to me

Every need He supplies
He is just that good
Miracles before my eyes
He is just that good
Is he good all the time?
Yes, he's just that good
He is just that good
He is just that good

Balls of shame coming down
He is just that good
Healing power is breaking out
He is just that good
Is He good all the time
Yes, He's just that good
He is just that good oh

I know that my God is strong and able
To do what he said he would
He'll do what he said he would
Oh my God can only be faithful
Jesus is just that good
You have been just that good to me
You have been just that good to me
You have been just that good to me
Just that good to me
