

## Working It Out

Jon Reddick

All things work together

Look around and see the hand of Jesus  
Look around and see what he has done  
It's that hard to see that he's not changing  
Not changing in his love  
Not changing in his love

There's a mountain standing tall before you  
There's a battle you have left to win  
There's a storm inside that won't stop raging  
There's power in his hand  
There's power in his hand

He is working it out  
God is working it out  
I will never foresee the day he truly let me down  
And I know he's moving through my way  
But I pray the Lord Almighty  
He is working it out

There's a song that's sing within the waiting  
There's a sound that makes the darkness run  
Here's a miracle about heaven  
It's only just begun  
It's only just begun yeah yeah

'Cause he is working it out  
God is working it out  
I will never foresee the day he truly let me down  
And I know he's moving through my ways  
But I praise the Lord Almighty he is working it out

All things work together for his glory and my good  
He's working yeah  
All things work forever for his glory and my good  
He's working yeah

He is working it out  
God is working it out  
I will never foresee the day he truly let me down  
And I know he's moving through my way  
But I pray the Lord Almighty  
He is working it out
