

# If I Had A Bar

Jon Wolfe

Sippin' on ten dollar drinks  
So loud can't hardly think  
With this uptown crowd conversation  
Don't even know what the hell they're sayin'  
Been sittin' here all night long  
Still ain't heard one country song  
I tell you right now if it was up to me  
I'd do it a little differently

If I had a bar it'd be honky tonk heaven  
That steel guitar'd stay cranked up to eleven  
24/7 pourin' doubles in their drinks for free  
Wouldn't be too hard to find an empty seat, aw no  
Right beside some pretty girl  
Shootin' pool and singin' to Meryl  
Those neon lights would never go dark  
If I had a bar

I can almost see it now  
Little dive on the edge of town  
Miller Light sign shinin' like a beacon  
Servin' up whatever you're needin'  
Bartender knows everybody's name  
Pours a little wisdom in every drink  
Got dust on the floor them doors are swingin'  
Maybe I'm just dreamin' but

If I had a bar it'd be honky tonk heaven  
That steel guitar'd stay cranked up to eleven  
24/7 pourin' doubles in their drinks for free  
Wouldn't be too hard to find an empty seat, aw no  
Right beside some pretty girl  
Shootin' pool and singin' to Meryl  
Those neon lights would never go dark  
If I had a bar

If I had a bar it'd be honky tonk heaven  
That steel guitar'd stay cranked up to eleven  
24/7 pourin' doubles in their drinks for free  
Wouldn't be too hard to find an empty seat, aw no  
Right beside some everyday Joe  
Sure ain't scared of no dirty jokes  
Those neon lights would never go dark  
Little hole in the wall with some hillbilly charm  
If I had a bar

If I had a bar  
If I had a bar  
If I had a bar
