

## If You're Lonely Too

Jon Wolfe

Hey there baby, sippin' on your drink  
If there ain't nobody sitting in that seat  
I was thinkin'  
Maybe, maybe, maybe, I could sit on down

You don't look like your havin' a good time  
And if your days been anything like mine  
Don't worry baby  
Maybe, maybe, maybe we could turn it around

Where the beer is cold  
We could put a couple in our hands  
And the bands pretty good  
We can get out on that floor and dance  
And go all night, like a couple lovers on the loose  
Maybe get a little crazy  
Maybe baby, if you're lonely too.

I sure hope I'm not coming on to strong  
Whatever you do don't go and take this wrong  
But baby, I could really use a lady like you tonight  
But I'm not trying to walk you down the isle  
But I think we could make each other smile, for a little while  
Yeah maybe, maybe maybe if that's alright

Where the beer is cold  
We could put a couple in our hands  
And the bands pretty good  
We can get out on that floor and dance  
And go all night, like a couple lovers on the loose  
Maybe get a little crazy  
Maybe baby, if you're lonely too

Yeah the beer is cold  
We could put a couple in our hands  
And the bands pretty good  
We can get out on that floor and dance  
And go all night, like a couple lovers on the loose  
Maybe get a little crazy  
Maybe maybe maybe, maybe baby if you're lonely too  
If you're lonely too  
Yeah if you're lonely too  
If you're lonely too  
Girl, you sure act lonely
