

It Just Feels Right

Jon Wolfe

A margarita on the rocks
A couple ice cold beers was just enough
To strike up
A little small talk
And girl who'd have thought that a couple strangers
Would hit it off, take a chance, get along on a dance

And I dont know the words to this song but
I'm signin' along
Hope it keeps on playin' on 'cause it just feels right
Yeah it's perfectly clear
Something's happenin' here
I wanna hold you tight
'Cause it just feels right

I'm not really good with lines
But I'm havin' a good time just laughin' and talkin'
No this don't happen often
Do you think it would be okay
The next slow one that plays one more time
Before we go we could dance real close

And now I dont know the words to this song but
I'm signin' along
Hope it keeps on playin' on 'cause it just feels right
Yeah it's perfectly clear
Something's happenin' here
I wanna hold you tight
'Cause it just feels right

Yeah, don't know the words to this song
But I'm singin' along
Hope it keeps playin' on 'cause
It just feels right
Yeah It's perfectly clear something's happenin' here
I want to hold you tight
And I want to kiss you tonight 'cause it just feels right
It just feels right
Oh it just feels right
It just feels right
It just feels right
