

# Long Song

Jon Wolfe

I didn't plan on going out tonight  
But you can't say no to buddies like mine  
If it weren't for them  
Guess I'd never met you  
And girl if this is as far as we go  
I've had the time of my life  
Since you said hello  
Felt like two old friends  
On to something new

If this is the first kiss  
Of a lifetime of nights like this  
Then this is the first of a million memories  
I'll never forget

But if this is last call  
Let's have them pour something strong  
If this is the last dance  
I hope it's a long song

I saw you with your girls  
When I walked through the door  
I ditched my friends and you did yours  
And just like that four hours came and went  
Now it's getting on down to goodbye time  
And I won't pretend like I can read your mind  
But you're holding on like you  
Don't want this to end

If this is the first kiss  
Of a lifetime of nights like this  
Then this is the first of a million memories  
I'll never forget

But if this is last call  
Let's have them pour something strong  
If this is the last dance  
I hope it's a long song  
A long song  
If this is the last dance  
I hope it's a long song
