

# That's What I'm Doin'

Jon Wolfe

I spend my money on that double barrel whiskey  
Neon girls and old guitars  
I crank my speakers til my ears bleed whitley  
Been known to take it too honky tonk far  
And round and round and around I get  
While youre playing hard to forget

I've been buzzing like the late night bar lights flicker  
Anything thats gets me getting over you quicker  
Rocking like a rhinestone wreckin ball  
I'm the first first shot and the last, last call  
I'm a genuine, certified good time getting down to it

Yeah that's what I'm doing  
Since you left me all high and dry  
Living seven days a week like it's Saturday night

Jump outta bed of my F-150  
Crack open breakfast from a tall boy can  
Going strong like the mighty Mississippi  
On a roll ever since you ran  
Outta love and off with my heart  
Yeah I'm staying busy not falling apart

Just... I've been buzzing like the late night bar lights flicker  
Anything thats gets me getting over you quicker  
Rocking like a rhinestone wreckin ball  
I'm the first first shot and the last, last call  
I'm a genuine, certified good time getting down to it

Yeah that's what I'm doing  
Since you left me all high and dry  
Living seven days a week like it's Saturday night  
Come on

Livin life like a country song  
Baby since you been gone

I've been buzzing like the late night bar lights flicker  
Anything thats gets me getting over you quicker  
Rocking like a rhinestone wreckin ball  
I'm the first first shot and the last, last call  
I'm a genuine, certified good time getting down to it  
Yeah that's what I'm doing  
Since you left me all high and dry  
Living seven days a week like it's Saturday night

Yeah that's what I'm doin'
