

Whenever I'm With You

Jon Wolfe

I like the way you look
Sitting shotgun
Riding around in my truck
The way you move to the music
Singing along
Oh girl I can't get enough
How you light up a room
When you walk through the door
The way your goodbye kisses
Leave me wanting more

Oh I never really felt like this
Girl I want you every chance I get
Yeah The way that I am
The man that I turn into
Whenever I'm with you

We can be out
Hitting the town
Or just hanging around on my porch
No It really don't matter
Cause when we're together
I'll always want a little bit more
I like your laugh
And the way you say my name
And when it comes to loving girl
You got everything

Oh I never really felt like this
Girl I want you every chance I get
Yeah The way that I am
The man that I turn into
Whenever I'm with you

Yeah, I never really felt like this
Girl I want you every chance I get
Yeah The way that I am
The man that I turn into
Whenever I'm with you
