

# Heartbeat

Jonas Blue

Take me back to the moment  
When this was all brand new  
'Cause I've been restless  
Golden wildfires glowing  
Got nothing left to lose  
'Cause we've been reckless

Heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
I feel this heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
This could be everything

Distant shadows  
You know we leave it all behind  
Let's stay reckless

Heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
I feel this heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
This could be everything

Heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
I feel this heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
I feel this heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
This could be everything

Heartbeat  
Beating and sinking away  
I think we can do anything  
We can do anything  
This could be everything
