

Chillin' in the Summertime

Jonas Brothers

It was a beautiful day
I threw my worries away
It's nothin' new, just the same old same
So imma start a new place
I turned the radio on
And it's my favorite song
It's so good to sing along
It feels so right, this can't be wrong

I just want a good time (Oh-wow)
I don't wanna fuss and fight (noo)
Life's too short to waste time (oh-no)
Every little thing's gonna to be alright

'Cause we're chillin' in the summertime,
Not a cloud in the sky
Everyone's feelin' fine
And everything will be alright
'Cause we're soaking up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine
And everything will be alright

There's a party tonight
Where the moon shines bright
Bring your friends and I'll bring mine
It feels so good to be alive
And when the night is through,
Baby girl it's just me and you
There's only one thing left to do and
That's to play this song for you 'cause

I just want a good time (Oh-wow)
I don't wanna fuss and fight (noo)
Life's too short to waste time (oh-no)
Every little thing's gonna to be alright

'Cause we're chillin' in the summertime,
Not a cloud in the sky
Everyone's feelin' fine
And everything will be alright
'Cause we're soaking up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine
And everything will be alright

And in the morning we're gonna rise (we're gonna rise, ooh yeah)
Trials and tribulations pass us by (pass us by, nooo)
So don't you worry, love is waitin' on the other side
Every little thing's gonna be alright

'Cause we're chillin' in the summertime,
Not a cloud in the sky
Everyone's feelin' fine
And everything will be alright
'Cause we're soaking up the sweet sunshine
Not a worry on my mind

Everybody's feelin' fine
And everything will be alright (alright)

'Cause we're chillin' in the summertime, (it's gonna be alright)
Not a cloud in the sky (it's gonna be alright)
Everyone's feelin' fine (feelin' alive)
And everything will be alright
'Cause we're soaking up the sweet sunshine
Not a worry on my mind
Everybody's feelin' fine
And everything will be alright
