

Remember This

Jonas Brothers

Used to pray for a moment just like this
There's a fire in your eyes I can't resist
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this
I can taste the forever on your lips
There's a lifetime livin' inside that kiss
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this

We ain't gettin' any younger, to be honest, I don't care
I'm not tryna live forever, I'm just tryna be right here
This I know, only now it's all we got
This I know, mmm

Just one more dance
Two more drinks
It'll go by fast
So don't you blink

Used to pray for a moment just like this
There's a fire in your eyes I can't resist
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this
I can taste the forever on your lips
There's a lifetime livin' inside that kiss
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this

Life moves a little faster every second I'm with you
I didn't know what I was after until I found it all in you
This I know
If tonight is all we got, then don't let go, yeah, yeah

Just one more dance
Two more drinks
It'll go by fast
So don't you blink

Used to pray for a moment just like this
There's a fire in your eyes I can't resist
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this
I can taste the forever on your lips
There's a lifetime livin' inside that kiss
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this

Remember, remember, remember
Wanna remember, remember, remember
Wanna remember, remember, remember
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this

Used to remember pray for a moment just like this
There's a fire in your eyes I can't resist
Baby, we're gonna wanna remember this
You know it's true

Baby, we're gonna wanna remember this
Used to pray for a moment just like this (Yeah, yeah, oh)
There's a fire in your eyes I can't resist
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this
I can taste the forever on your lips (On your lips, yeah, yeah)
There's a lifetime livin' inside that kiss
Baby, we're gonna wanna remember this (Remember this, yeah)
Baby, we're gonna wanna remember this

Remember, remember, remember
Wanna remember, remember, remember
I wanna remember, remember, remember
Baby, we're gonna wanna remember this
Baby, we're gonna wanna remember this
