

## Time

Jonas Brothers

Know I asked for snow, know I asked for lights  
Know I asked for shooting starry nights  
I know I wrote up a list miles long, but I got it all wrong, that's right, yeah  
I know I asked for trees covered in silver  
I know I asked for trips to the seven wonders  
I know I wrote up a list miles long, but I got it all wrong, that's right, yeah

I know I asked for a million things, but I swear I must've lost my mind

All I wanted was you and you and you and you and I  
All I wanted was you and you and you and you and I  
All I wanted was time

One, two, three  
I know I asked for kisses under mistletoe  
And if I'm being honest, yeah, I still want those  
But you can return all the gifts that you wrapped up in ruby bows, yeah

I know I asked for a million things, but I swear I must've lost my mind

All I wanted was you and you and you and you and I  
All I wanted was you and you and you and you and I

All I wanted was time  
Make the hands on the clock stop moving  
All I wanted was time  
Every day, every night before we lose it  
No, there's no need to lie  
Choosing you every time if I'm choosing  
If we're doing it right  
Spending time is the best part of being human

All I wanted was you and you and you and you and I  
Oh  
All I wanted was you and you and you and you and I  
All I wanted was you and me and our family just sitting 'round the Christmas tree  
Filling up our heads with brand-new memories  
All I wanted was you and you and you and you and I  
All I wanted was time
