

# Trust

Jonas Brothers

I don't trust myself when I'm around you  
I don't trust myself when I'm around you

Lately, I don't think I even know me  
Every time you come around, I'm like the old me, old me  
Take me back to when you were my only  
Well, we were thicker than thieves, like a pod, two peas

And all at once, it's like I'm being someone else, yeah  
You're all I want but I know that you're bad for my health

I don't trust myself when I'm around you  
I don't trust myself when I'm around you  
Doing things I never do, acting like a damn fool  
I don't trust myself when I'm around you

I know that I'm better off without you  
But I know that I could never live without you, 'out you  
Thinkin' 'bout my lips upon your mouth, yeah  
Got me weak in the knees, my God, can't breathe

And all at once (All at once)  
It's like I'm being someone else (I can be your someone else)  
All I want (All I want)  
I know that you're bad for my health (Oh no, no)

I don't trust myself when I'm around you (Hey)  
I don't trust myself when I'm around you (Without you, baby)  
Doing things I never do (Ayy, ayy, ayy)  
Acting like a damn fool  
Yeah, I don't trust myself when I'm around you  
(When I'm around you, baby)

I don't trust, I don't trust myself  
I don't trust myself, yeah  
I don't trust, I don't trust myself  
I don't trust myself  
I don't trust myself when I'm around you

I don't trust myself when I'm around you (Hey)  
I don't trust myself when I'm around you (Around you, baby)  
Doing things I never do (Ayy, ayy, ayy)  
Acting like a damn fool  
Yeah, I don't trust myself when I'm around you
