

# All Night & Every Day

JonasU

One two, oh one two four  
Your feet are on the floor  
And I want, I want you more mmm  
Seven, and eight, nine, ten  
My head is gone again  
Want you to pull me in mmmm ohhh

Under under the vibe  
Wanna be by your side  
It's you working that bass  
Making me stay  
Ohhh  
I want, want the invite  
Our own party tonight  
It's you looking my way  
Making me stay

Maybe  
All the lights and liquor got me hazy  
I know I'm gonna need you on the daily  
You got the type of rhythm that could phase me  
Yeah show me how you move that body

All night and everyday  
That boom boom all up on me  
All night and everyday, everyday  
All night and everyday  
That boom boom all up on me  
All night and everyday, everyday

Won't you pour another drink for me  
I ain't going nowhere till we get started  
Don't stop oh don't stop now  
Watch how I work this out  
Turn up, turn it loud oohhh

Under under the vibe  
Wanna be by your side  
It's you working that bass  
Making me stay  
Ohhh  
I want, want the invite  
Our own party tonight  
It's you looking my way  
Making me stay

Maybe  
All the lights and liquor got me hazy  
I know I'm gonna need you on the daily  
You got the type of rhythm that could phase me  
Yeah show me how you move that body

All night and everyday  
That boom boom all up on me  
All night and everyday, everyday  
All night and everyday  
That boom boom all up on me

All night and everyday, everyday

All night and everyday  
That boom boom all up on me  
All night and everyday, everyday  
All night and everyday  
That boom boom all up on me  
All night and everyday, everyday
