

Fade Away

Jonasu

Yeah some day
I'll be so over you

And no pain
Is hitting me out the blue

Yeah nothing is the same
When someone calls your name
A part of me still breaks

I wanna be alone
Just me without your ghost
No matter where I go

I'm waiting till your memories fade away
Fade away
Still waiting till your memories fade away
Fade away

Waiting till your memories
Waiting till your memories

Yeah some day
I'll be so over you

And no pain
Is hitting me out the blue

Yeah nothing is the same
When someone calls your name
A part of me still breaks

I wanna be alone
Just me without your ghost
No matter where I go

I'm waiting till your memories fade away
Fade away
Still waiting till your memories fade away
Fade away

I'm waiting till your memories fade away
Fade away

I'm waiting till your memories

I'm waiting till your memories fade away
Fade away
