

# Healing

Jonasu

I thought watching you leave would take the weight off me  
Give me some type of euphoria but it feels like defeat

I wish you healing, healing, healing  
I hope you find love  
Wish you nothing but healing, healing, healing  
You wait till the sun comes up

I wish you healing, healing, healing  
I hope you find love  
Wish you nothing but healing, healing, healing  
You wait till the sun comes up

I wish you healing, healing, healing  
I wish you healing, healing, healing

Hope you find your way out the darkness into the light  
You can trust whatever your heart says, it's always right

We used to be sun and the moon  
Always shine my light on you  
We used to be sun and the moon  
Always shine my light on you  
We used to be sun and the moon  
Always shine my light on you  
We used to be sun and the moon  
Always shine

I wish you healing, healing, healing  
I hope you find love  
Wish you nothing but healing, healing, healing  
You wait till the sun comes up

I wish you healing, healing, healing  
I hope you find love  
Wish you nothing but healing, healing, healing  
You wait till the sun comes up

I wish you healing, healing, healing  
I wish you healing, healing, healing  
I wish you healing, healing, healing  
I wish you healing, healing, healing
