

# I Hate Goodbyes

Jonasu

I hate goodbyes  
I hate goodbyes

Strangers in the hallway (Hallway)  
Every night, you're passing me by  
Dangerously lonely (Lonely)  
The reason that we ain't asking why  
Why don't we touch like we used to before?  
Why we been silent but keep slamming doors?  
Dangerously lonely (Lonely)  
Is why we never leave this behind

All to nothing overnight  
To think of us as wasted time  
Can we walk away and say that we tried?  
From a love at first hello  
To somebody I used to know  
It's the hardest part of letting you go

I hate goodbyes  
I hate goodbyes  
And I know it's not right  
But I still hold you tight, yeah  
I hate goodbyes  
I hate goodbyes

I hate goodbyes

Baby, we've been best friends  
Ya, we turned this house to a home  
We keep playin' pretend  
Even though the bed has gone cold  
Why don't we touch like we used to before?  
Where is the love? I don't feel it no more  
But I don't wanna end it  
Can't imagine someone else in your arms

All to nothing overnight  
To think of us as wasted time  
Can we walk away and say that we tried?  
From a love at first hello  
To somebody I used to know  
It's the hardest part of letting you go

I hate goodbyes  
I hate goodbyes  
And I know it's not right  
But I still hold you tight, yeah  
I hate goodbyes  
I hate goodbyes

I hate goodbyes

I hate goodbyes  
I hate goodbyes  
Ooh, I-I-I, I hate goodbyes
