

# Let It Be Me

Jonasu

Try to escape  
While we still have time  
What is yours and mine  
We are beyond that line

We're wide awake  
Let's getaway  
Before the lights come on  
It's not too late  
Steal their champagne  
It's time to make a run

We can turn this night to something beautiful  
We're the best when we dare to be unusual  
If you need someone in your wildest dreams  
Let it be me  
Let it be me

It's what they say  
Only the brave die young  
But if, if we stay  
We'll fade out like a song

We're wide awake  
Let's make mistakes  
It's time to chase the sun  
We're not too late  
Tomorrow waits  
It's time to make a run

We can turn this night to something beautiful  
We're the best when we dare to be unusual  
If you need someone in your wildest dreams  
Let it be me  
Let it be me
