

More Party

Jonasu

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more heat, if you can

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more pump up the jam

I want more party
I want more party
I want more party

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more heat, if you can

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more pump up the jam

I want more
I want more party
I want more party
I want more party

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more heat, if you can

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more pump up the jam

I want more party
I want more party
I want more party

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more heat, if you can

I want more party
More dance, a little less talk
A lot of your hands up on my body
More dance, a little more pump up the jam

I want more
