

Oasis

Jonasu

I can't forget
This dream I had about you in my bed
24/7 going 'round my head
Now I've been dealing with the side effects
Side effects

Let's get wasted on me
Come and taste it
Don't be shy and take another sip from my oasis
Let's not waste it
Oh my love is sacred
Don't be shy and take another sip
Take another sip from my oasis
Take another sip from my oasis

A crowded room
But when we're dancing all I see is you
You got me hooked on everything you do
So if you want me come and make a move
Make a move

Want you to come here close
You whisper and tell me those
Secrets you never told me
Show you what I'm about
We both know there ain't no doubt
You want another round with me

Let's get wasted on me
Come and taste it
Don't be shy and take another sip from my oasis
Let's not waste it
Oh my love is sacred
Don't be shy and take another sip
Take another sip from my oasis
Take another sip from my oasis
Take another sip from my oasis...

Take another sip from my oasis
Take another sip from my oasis

Let's get wasted on me
Come and taste it
Don't be shy and take another sip from my oasis
Let's not waste it
Oh my love is sacred
Don't be shy and take another sip
Take another sip from my oasis
