

Top Of The World

Jonasu

Ooh
Don't let their words
Get all the best of you

It could be worse
You've still got the rest of you
Take a step back, spend a little time with me

Come on over, together we'll over work it out
We got each other, ain't nobody can't burn it down
Take a step back, love I'm gonna make you see

Umm
Don't let 'em shake you
Don't let 'em break you down
I wanna take you all the way now

To the top of the world
The top of the world
Where nobody can hurt ya
I won't let nobody hurt ya
At the top of the world
The top of the world
You called my name and I heard ya
I'll take you to the top of the world yeah, world yeah

Top of the world, that's where you meant to be
You got me girl, you bring out the gent to me
I'll never leave you standin' in the cold and rain
Ooh
Give you my coat, I'm weather the storm for you
That's when I know, I must've been born for you
So take my hand, let's get away from all the pain
Woah, woah, woah
Don't let 'em shake you
Don't let 'em break you down
I wanna take you all the way now

To the top of the world
The top of the world
Where nobody can hurt ya
I won't let nobody hurt ya
At the top of the world
The top of the world
You called my name and I heard ya
I'll take you to the top of the world yeah, world yeah
