

Blue Light

jonatan leandoer96

Is your love
Controlled by a remote?
Is your love
Controlled by a remote?
I can't sleep
And I'm losing control
Green moon
As I watch the twilight
I dance, I dance
With you
Green eyes, green moon
Hold my hand
Green crystal lakes I fly away
Green crystal lakes I fly away

Watch your tongue, the devil's right around the corner
Watch your step baby girl, I know just how it feels
And if you wanna live that way baby girl, I can show it, I will never
ever, ever, ever leave
Life is such a beautiful game if you wanna play baby girl, we can pla
y every day
And if it ever goes to the third round, I'll play it the way you play
, sensitive

Oh, oh, oh
Oh, oh
I know just how it feels (When I'm with you, with you)
I'll never leave (Green castles, green castles)
I'll fly away
If you play the way I play play with you
Watch your mind
Watch your mind
I could never ever ever watch again
Couldn't leave
Couldn't leave

Is your love controlled by a remote?
Is your love controlled by a remote?
Is your love controlled by a remote?
Watch your tongue
The devil never leaves behind every step, every step (Controlled by a
remote?)
Watch the time
Is your love controlled by a...
The devil always moves behind every step
Is your love controlled by a remote?
Is your love controlled by a remote?
Is your love controlled by a remote?
Is your love controlled by a remote?

Go up, go up, go up, go up
Not down, not down, not down, not down

Go up, go up, go up, go up
