

# Farawaywithyou

jonatan leandoer96

Take me far away with you  
Take me to another life, I'm through  
I'm a vampire, all I need is you  
All I ever wanted was to hold you  
I love you

Take me far away with you  
Take me to a another life  
Take me far away with you  
Take me to another life, I'm through  
I'm a vampire, all I need is you  
All I ever wanted was to hold you, to hold you

I have fought so long, for someone like you to come and haunt  
I'm an insect on your skin  
My time is growing thin  
You put your hand on my chin, leaving your side is a mortal sin  
I think I see you in my dreams  
I never fall asleep, blood drippin' from my chin  
I left my heart deep within  
Bathtub filled with gin, I'm an insect on your skin  
Take me far away with you  
Take me far away with you  
Take me to another life, I'm through  
I'm a vampire, all I need is you  
All I ever wanted was to hold you  
I love you

Take me far away with you  
Take me to a another life  
Take me far away with you  
Take me to another life, I'm through  
I'm a vampire, all I need is you  
All I ever wanted was to hold you, to hold you
