Yeah

Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain  
Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain  
Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain  
Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain

I'm gone, I'm missing  
Without a trace, can't trace me now  
No GPS can track me down, I am down on the ground  
I'm gone, I'm missing, without a trace, can't trace me now  
Down on the ground, can't hear no sounds  
I am flying across towns  
Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain  
Fleeing far

Hell rain, hell rain  
Hear the blood pumping through my veins  
Hell rain, heal pain  
Flood the streets, fill them with flames, with flames  
Heal pain, no stains, hear the blood pumping through my veins  
Hell rain, hell rain  
Hear the blood pumping through my veins

I'm gone, I'm missing  
Without a trace, can't trace me now  
No GPS can track me down  
Down on the ground, can't hear no sounds  
I'm gone, I'm missing  
Without a trace, can't trace me now  
No GPS can track me down  
Down on the ground, can't hear no sounds

Hell rain, hell rain  
I hear the blood pumping through my veins  
Hell rain, heal pain  
Flood the streets, fill them with flames, with flames  
Heal pain, no stains, hear the blood pumping through my veins
