

Razor Love

jonatan leandoer96

I wonder why you treat me so good
When I've been so sad
I put a curse on myself
I put a spell on my health
Your razor love
Heals me inside
But girl, please don't cry
You're all I have, my town can be proud
Don't cry for me

When my family gets old
I want them to be happy
I can take care of myself and you, and you
Where's the pretty girl with the big brown eyes?
That walks through glass with her eyes shut and a smile
I put a curse on my self (I put a curse on myself)
I put a spell on my head (I put a spell on my head)
Your razor love (Your razor love)

Where's the pretty girl with the big brown eyes?
