

Toxic

jonatan leandoer96

Drip like nectar
The shadows is my protector
She got skeleton wings
I felt it deep within
Steal what you can
Don't bite the hand, run away
Steal what you can
I felt it deep within
Inside my skin
Couldn't let it take over
I felt it deep within
Inside my skin
I couldn't let it take over

The sound of your voice is toxic
Demons in my phone selling Oxy
The sound of your voice is toxic
I need you right here with the foxes

I keep my dogs around
I don't belong when I'm not around
I seen mountains underground
I was lost but now I'm found
Horse carriage from town to town
I felt it deep within
Inside my skin
I couldn't let it take over
I felt it deep within
Inside my skin
I couldn't let it take over
No, no, no

The sound of your voice is toxic
Demons in my phone selling Oxy
The sound of your voice is toxic
I need you right here with the foxes

Oceans up high, I'm not afraid anymore
I can sense your fear when I'm not by your door
Where we're going, nobody knows
