

# Under Heaven

jonatan leandoer96

I'm trying hard just to stay out of trouble  
But I got trouble on my mind  
I want the freedom under heaven  
We all gonna shine

A couple brothers lost, please don't cry  
Told my sister it's fine  
Through the pain, we'll all be fine  
Like a fast car move through my life

Nightlife, speed demon, flashing lights  
Let's get fucked tonight  
I don't care, pull up, go slide  
Get them boys out my sight

We don't know 'em, so fuck 'em 'ight  
Like a bat, I hang upside down  
I don't wanna see the light  
OG vampire, I've been in the night

I wanna see the light  
Light, light, light, I wanna see the light  
Light, light, light, I wanna see the light  
Light, light, light, I wanna see the light

I'm trying hard just to stay out of trouble  
But I got trouble on my mind  
I want the freedom under heaven  
We all gonna shine

A couple brothers lost, please don't cry  
Told my sister it's fine  
Through the pain, we'll all be fine  
Like a fast car move through my life  
Like a fast car  
On an empty highway

I'm trying hard just to stay out of trouble  
But I got trouble on my mind  
I want the freedom under heaven  
We all gonna shine

A couple brothers lost, please don't cry  
Told my sister it's fine  
Through the pain, we'll all be fine  
Like a fast car move through my life  
Like a fast car  
Broken heart

I wanna see the light  
Light, light, light, I wanna see the light  
Light, light, light, I wanna see the light  
Light, light, light, I wanna see the light
