I went to see what I could find  
I went to see what I could find  
I went to see what I could find  
I went to see what I could find  
I went to see what I could find  
A place in heaven on my mind  
Highway nightmares out here there's no time  
I'm a red road vampire I see what I can find  
I went to see what I could find  
A place in heaven on my mind  
Highway nightmares out here there's no time  
I'm a red road vampire I see what I find  
You smell like watermelon mixed with grape wine  
There's no-one like you, you're one of a kind  
Highway nightmares out here there's no time  
There's no time I went to see what I could find
