

Vampire Blues

jonatan leandoer96

I went to live of a story pretend
My eyes were shattered upon his intent
Ways of a living enhance the moment
You're not really listening to what I meant

We don't sleep
We don't sleep
We don't sleep when it's dark outside
I'm a vampire in the night
Searching for blood I run to the sky
We don't sleep
We don't sleep
We don't sleep when it's dark outside
I'm a vampire in the night
Searching for blood I run to the sky

She wants to meet my soul without vengeance
Take back what's mine from a time with no cents
I've been far too kind
Far too kind for me

I want to dance all the time
Dancing the only thing that makes me unwind
Cause it makes sense to do something together

We don't sleep
We don't sleep
We don't sleep when it's dark outside
I'm a vampire in the night
Searching for blood I run to the sky
We don't sleep
We don't sleep
We don't sleep when it's dark outside
I'm a vampire in the night
Searching for blood I run to the sky
