I just wanna walk out of this earth because  
I don't want the pain anymore (I don't want the pain anymore)  
I just wanna walk out of this world cos  
I let everybody down anyway (everybody down anyway)  
I just wanna cut the walls with my past  
And let everybody drown in their sins (Everybody drown in their  
sins)  
I don't wanna take care of it all  
I still smile but I know that I'm not okay (I know that I'm not  
okay)  
I just wanna rip my flesh out and leave cos  
I'm tired of myself anyway  
I just wanna walk out of this earth because  
I don't want the pain anymore (I don't want the pain anymore)

No more, I stand, I wanna walk, I walk, I still stand corrected  
(Anymore)

Voice and high and voice and leaves  
I walk through those  
My brain brain brain, in my brain brain brain  
Is my brain brain brain okay?  
I stand corrected, I stand corrected  
Souls erected (The spirits see what's left inside there)  
Stand corrected, I stand corrected (I stand corrected)  
The moths eat my brain  
The moths eat my brain  
I stand corrected
