When the fires start to burn  
All across the world  
We're stepping in turn

Even if we don't  
We'll know  
Even if we don't know  
Let it show

Killing all your trees and family  
Living in your dreams and influence speech

Leaving it to grow in your backyard  
You're the one to blame, it's going too far

Here we are, we are  
Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are  
Are we on top?

When the fires start to burn  
All across the world  
We're stepping in turn

Even if we don't  
We'll know  
Even if we don't know  
Let it show

Killing all your trees and family  
Living in your dreams and influence speech

Leaving it to grow in your backyard  
You're the one to blame, it's going too far

It's going too far...

I wanna see ya  
I wanna see ya now

You want to bring it  
You want to bring it down

I wanna see ya  
I wanna see ya now

You want to sing it  
You want to sing it down

Here we are, we are

Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are  
Are we on top?

Drown it out  
Drown it out  
Drown it out  
Meet me in the water  
Meet me in the water  
Meet me in the water, oh, oh

Shout it down  
Shout it down  
Shout it down  
Meet me on the wall front  
Meet me on the wall front  
Meet me on the wall front, oh, oh

Drown it out  
Drown it out  
Drown it out  
Meet me in the water  
Meet me in the water  
Meet me in the water, oh, oh

Shout it down  
Shout it down  
Shout it down  
Meet me on the wall front  
Meet me on the wall front  
Meet me on the wall front, oh, oh

Here we are, we are  
Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are  
Are we on top?

Here we are, we are  
Here we are, we are
