

# Ones Who Fly Twos Who Die

Jonathan Boulet

(One, two, three, four)

Tell me everything, yeah everything that you have ever known  
Tell me story after story about all that you have done  
Tell me places, all the places that you think that I should go  
Tell me all, tell me all, we're all living in this town

Tell me everything, yeah everything that you have ever known  
Tell me story after story about all that you have done  
Tell me places, all the places that you think that I should go  
Tell me all, tell me all, we're all living in this town

Whoa

Tell the people, all the people put their arms up in the sky  
Tell the corners all the corners gather up the crowd tonight  
Tell them endlessly, yeah endlessly we're never gonna die  
Tell the world, tell the world come and join the ones who fly

Tell the people, all the people put their arms up in the sky  
Tell the corners all the corners gather up the crowd tonight  
Tell them endlessly, yeah endlessly we're never gonna die  
Tell the world, tell the world come and join the ones who fly

(Tell me, tell me, tell me)

Tell me everything, yeah everything that you have ever known  
Tell me story after story about all that you have done  
Tell me places, all the places that you think that I should go  
Tell me all, tell me all, we're all living in this town

Tell me everything, yeah everything that you have ever known  
Tell me story after story about all that you have done  
Tell me places, all the places that you think that I should go
