

# Forever

Jonathan Butler

Someone said that true love never dies  
But it goes instead from strength to strength  
As time goes by  
The promise is returning your rise  
In all my heart, we know that hearts can never lie

Forever, and longer still  
Forever, so many dreams we will fulfill  
Together, we'll share this love  
And forever can never be long enough

Remember how we lost our way?  
And we thought we'd break, and never make it home again  
Now we look back on yesterday  
What was the cost? So little lost, so much we gained

Forever, and longer still  
Forever, so many dreams we will fulfill  
Together, we'll share this love  
And forever can never be long enough

No matter what life throws our way  
We'll survive, 'cause we face each and every storm  
Together our hearts are bound forever

Oh, baby...

Forever, and longer still  
Forever and ever, so many dreams we will fulfill  
Yes, girl  
Together, yeah, we'll share this love  
And forever can never be long enough

No, no, no (forever)  
We'll make it, we'll make it, baby  
Just you and I, you and I (forever)  
Forever, yes we will

...
