

# I'm Right Here

Jonathan Butler

Woh woh woh, Baby  
Oh, oh, oh,  
Lately it's been strange  
I could feel it - something missing  
You use to talk to me no matter what time of day  
Mmm  
Is something else taking my place?  
Is anything to say?  
Why you keep running from this love that's here to stay?

I'm right you  
When you need me  
I'm right here  
Wherever you call  
I'm right you  
When you need me  
I'm right here  
Wherever you call

We can put so much, but love, faith has kept us  
When no else can see the power of love inside  
We always worked it out before  
I'm never gone to let you go  
I promise I'll be there for you  
Of this you can be sure

When you feel the weight is getting to you  
Babe here's my shoulder you can lean on me  
Lean on me?  
Oh, I said whenever you call me
