

# One More Dance

Jonathan Butler

Oh, it's so good to see you baby

Hey baby, it's so good to see you my love  
And I never stop thinking of  
The loves that we had  
And the good times that we shared together

And oh, I see you're not here alone  
I didn't think you'd still be  
On your own, he's one lucky guy  
And I know he thanks the stars he met you  
I see that you've got to go  
But before you move on, tell me can I have just

One more dance, then I will let you go  
Just one more dance, 'cos I think you should know  
I never got over you  
Can I have one more dance with you  
Oooh girl, oh yeah

Since you've been gone girl  
All that I have is the past  
Now busy too much to ask  
Girl come into my arms  
And let's capture what we lost for  
I see he's looking right at me  
And I mean no disrespect, but you can leave girl

I have, one more dance, then I will let you go  
Just one more dance, 'cos I think you should know  
I never got over you  
Can I have one more dance with you  
One more dance then go back to him  
Just one more dance, can't help this stuff pain  
That I've been going through  
Can I have one more dance with you

Baby hold me, like you never let go  
Baby hold me, let the memories flow oooh

One more dance, then I will let you go  
Just one more dance, 'cos I think you should know  
I never got over you  
Can I have one more dance with you
