

# Take Good Care of Me

Jonathan Butler

Oh, baby

I found the nerve to try again  
Some broken hearts, given time will mend  
Will you be gentle if I surrender all to you, to you?

Please understand that I've got to be sure  
The lessons I've learned, I can't ignore  
Will you be gentle (be gentle)  
If I surrender all to you, to you?

Take good care of me  
'Cause my heart's a tender thing, oh, yeah  
Take good care of me  
'Cause this heart has known much pain  
And can never handle hurting again  
So take good care of me, of me

Don't get me wrong, 'cause I really care  
But a shadow of doubt has always been there  
Please reassure me (reassure me)  
Hold me against my fears away, my fears away (fears away)

Something tells me it's right this time  
It took a little while, but I made up my mind  
Please reassure me (reassure me)  
That we'll be together, come what may, come what may

Take good care of me  
'Cause my heart's a tender thing, oh, yeah (woah)  
Take good care of me  
'Cause this heart has known much pain  
And can never handle hurting again  
So take good care of me

I know forever's never promised to anyone  
So if it can't be forever (ever)  
I'll take what I can get  
'Cause, baby, you're the best thing (you're the best thing)  
That's ever happened to me yet, oh

Oh, baby. So if it can't be forever (ever)  
I'll take what I can get  
'Cause, baby, you're the best thing (you're the best thing)  
That's ever happened to me yet, oh

Take good care of me  
'Cause my heart's a tender thing (woah, oh)  
Take good care of me (take it all, oh, baby)  
'Cause this heart has known much pain  
And can never handle hurting again  
So take...

Take good care of me (oh, darling)  
You got my heart in your hands this time (woah, baby)  
Take good care of me (I give it to you all of me, baby)  
'Cause this heart has known much pain

And can never handle hurting again  
...
