

This Time Is Forever

Jonathan Butler

I can feel it, love is in the air
The air for us to take
But the closer that we get to love
The more you pull away
But can it be you're afraid to hurt again? (Ooh)
Well, I can be all you're dreaming of
I'll take you to the water, but I can't make you love me (no)

It's not another shot in the dark (no)
It's not another step in your heart (no)
This is where the true love starts
I want you to know (this time is forever)
(Yeah, baby, yeah)

When I hold you in a warm embrace
You try to fight the yearning
I can see the question on your face, baby
See the doubt returning in your head
What am I, what am I supposed to say, baby?
You've got my heart, and it's here to stay
And I'll be your lover till hell freezes over (no)

It's not another shot in the dark (no)
It's not another step in the heart (no)
And this is where the true love starts
I want you to know (this time is forever)
(Oh, woah, ooh)

So let's be brave, let's ride the waves into love's paradise
In spite of all, we made the fall that love's the reason why
(This time is forever)

It's not another shot in the dark (no)
It's not another step in your heart, baby (no)
This is where the true love starts
I want you to know (this time is forever)

No, it's not another shot in the dark (no)
It's not another step in your heart, baby (no)
This is where the true love starts
I want you to know (this time is forever)
This time, it's gonna last forever (forever, yeah)
(I love you, baby, spend my life with you, ooh)
Take it nice and, take it nice and slow, baby
I want you to, I want you to know, oh (this time is forever)
...
