

# Around and Round

Jonathan Clay

I stop dead in my tracks  
'Cause the fact, it finally hits me  
That I want you back

They say time will make this pass  
But I got a funny feeling that this feeling's gonna last.  
It's gonna last yeah  
It's gonna last

A little time is what they say I need  
But time has passed and you've still got your hold on me

I think I'll, I'll get outta this town  
'Cause the only way I seem to go  
Is around and round, around and round

For you  
Go 'round is all I do  
And it's got me torn in two  
Just wandering around and round  
Around and round for you  
Not waiting on a sign  
Not waiting on a cue  
Just wandering around and round  
Around and round for you  
Yeah  
Around and round for you

And it starts to all sink in  
The fact, it finally hits me that I might not win

And you say you need a little time to sort things out  
By now I think that you should know what I'm all about

'Cause I know in time  
This chance may pass  
And we might be left wishing we'd made it last

And my life has been upside down  
Cause the only way I seem to go is Around and round  
Around and round

For you  
Go 'round is all I do  
And it's got me torn in two  
Just wandering around and round  
Around and round for you  
Not waiting on a sign  
Not waiting on a cue  
I'm just wandering around and round  
Around and round for you  
Yeah  
Around and round for you

For you  
Go 'round is all I do  
And it's got me torn in two

Just wandering around and round  
Around and round for you  
Not waiting on a sign  
Not waiting on a cue  
Just wandering around and round  
Around and round for you  
Yeah  
Around and round for you
