

# Everybody Knows Her

Jonathan Edwards

Well, everybody knows her, she's the one to love  
Well, everybody knows her, she's the one to love  
It will take time to tell her  
She came by to tell you  
She wants you back again, try her luck again  
She wants you back again, try her luck again

She's out west waitin' for the sun to rise  
She's out west waitin' for the sun to rise  
But look in her eyes  
The sun in her skies  
Says she wants you back again, try her luck again  
She wants you back again, try her luck again

La da da da da dum da da da da, yes  
La da da da da dum da da da da, yes, yes

Everybody knows her, she's the one to love  
I said, everybody knows her, she's the one to love  
It will take time to tell her  
She came by to tell you  
She wants you back again, try her luck again  
She wants you back again, try her luck again  
Oh, she wants you back again, try her luck again
