

Hearts Overflowing

Jonathan Edwards

Fill your cup
And lift it up to hearts overflowing
Drink to me
And here's to we and love ever-growing

When I need you, I'm out in the rain
When I see you, I light up again

Diamond things
And golden earrings, all I could beg or borrow
I would pay or throw away
For one of your todays or tomorrows

When I need you, I'm out in the rain
When I see you, I light up again

Fill my cup
And lift me up to hearts overflowing
Drink to me
And here's to we and love ever-growing

When I need you, I'm out in the rain
When I see you, I light up again
