

Let the Rough Side Drag

Jonathan Edwards

It's a good thing that the sea's not dry
Such a good thing that your cow don't fly
Such a good thing to make a joyful noise
And it's a good thing that the beds can't talk
Such a good thing that your chair don't walk
Such a good thing that God made girls and boys

Let the rough side drag
Let the smooth side show
When you pull that load
Everywhere you go

And it's a good thing that the air is free
Such a good thing that a man can see
What a good thing the Lord above has done
And it's a good thing to be young and strong
Such a good thing that we're not old for long
Such a good thing that making love is fun

Let the rough side drag
Let the smooth side show
When you pull that load
Everywhere you go
Let the rough side drag
Let the smooth side show
When you pull that load
Everywhere you go
When you pull that load
Everywhere you go

Let the rough side drag
Let the smooth side show
When you pull that load
Everywhere you go
Let the rough side drag
Let the smooth side show
When you pull that load
Everywhere you go

Let the rough side drag
Let the smooth side show
