

# All Along

Jonathan McReynolds

As I count these blessings it occurs to me  
That there's never been a time You ain't been good to me  
Kind and patient  
Wonderful  
Your love is amazing  
So glad I'm Yours  
Then the cares of life just want some time with me  
And I get lonely and lose sight of all our history  
You've been consistent  
When I forget it  
You give me hints to help me remember

All along, all along  
You've been there  
All along  
Ooh, all along, all along  
There with me  
All along

And I love You there  
Just stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere  
'Cause I love You there, Lord  
Stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere

You take my tears away, so I won't lose to sorrow  
Why lose sleep when I know that You hold tomorrow?  
The way You care for me  
It's impressive  
You're always present, oh

All along, all along  
You've been there  
All along (All along)  
Ooh, all along, all along  
There with me  
All along

And I love You there  
Just stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere  
Lord, I love You there, just  
Stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere

Through the fire  
Even down to the wire  
I know You're gonna be walking with me  
To the end of the earth  
So I can rise up  
And be bold like a lion  
'Cause I know You're gonna be  
Strengthening me  
When I look back all I see is

All along, all along  
You've been there  
All along  
Ooh, all along, all along  
There with me  
All along

And I love You there  
Just stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere  
'Cause I love You there, Lord  
Stay right there  
Please, stay right there  
'Cause I need You there  
Don't go nowhere  
Don't go nowhere

Ooh, ooh  
Ooh, ooh  
Ooh, ooh  
Yaya yaaya, yaaaya yaya yaya  
Ooh, ooh
