

Basics

Jonathan McReynolds

I've seen miracles
And good shouts
And people leave with no doubts
Man, they different when they step out
Yeah, I've seen
Legs healed and arms stretched
Men's hearts refreshed
Lost girls leave kept

And after years witnessing all that
Who would think I could lose contact with You?
So what do you do when it gets like that?
You strip it down and rebuild it back with truth

So I can't believe that I'm back to the basics
Climbing out of the trees, getting back to the root
No, I can't believe that I'm back to the basics
Jumping down from the clouds, getting grounded in You

I've heard every song
And Sunday word
The profound, the absurd
And I studied
'Cause I'm a nerd
And I've heard that God's good
And He's real
And the devil, he'll steal
Faith over what you feel

And I promise I still believe all that
It's simple things that you must come back home to
Ain't complex with You
I can give my best
Even give what's left
But I can't move mountains if I lose step with You

So I can't believe that I'm back to the basics
Climbing down from the trees, getting back to the root
I can't believe that I'm back to the basics
Jumping down from the clouds, getting grounded in You

So if you lose your way
Get back to the basics
Somebody needs to pray
Get back to the basics
God's love is still the same
Get back to the basics
Come back and find your faith
Get back to the basics

Yeah, His hand don't pull away
So get back to the basics
You're not too far today
To get back to the basics
There's sun after the rain
Back to the basics
There's healing after pain

Back to the basics

Get back to the basics

Get back to the basics

Getting back to the basics

Get back to the basics
