

# Christ Representers

Jonathan McReynolds

Some people place their whole existence  
On the car they drive, or the clothes they've worn  
And we get all proud to rep our city, Chi-Town  
And even the month that they were born - September

See everybody loves, their different story  
Everyone on earth has a different cause  
But before the details get too gory  
There's one thing that unifies us all

We are Christ representers!  
We are Christ representers!  
And we shine our light so bright that we make them say Whoa  
We gotta let them know that we are Christ representers

I've been anointed to be the light  
And glorify my God  
So every box you try to put me in  
It may be exactly what I'm not

We're not your average boys and girls  
There's something very special on our ID  
What I'm worth to the world  
It's way bigger than me

Cuz we are, Christ representers!  
We are Christ representers!  
And we shine our light so bright that we make 'em say Whoa  
We gotta let them know that we are Christ representers!

We're the light of the world, we're a city on a hill  
And we're telling everybody that Jesus is real  
And we go by the name that's the greatest in the land  
Whoa, everybody don't understand, that's cool, but -

We are Christ representers!  
We are Christ representers!  
And we shine our light so bright that we make 'em say Whoa  
We gotta let them know that we are Christ representers!

It's in the way we walk, it's in the way we talk  
It's in the way we live, it's in the way we give  
It's in the way we praise, Jesus everyday  
That we shine our light so bright that we make 'em say Whoaa!
