

For Myself

Jonathan McReynolds

I've seen it for myself
Oh the stories I can tell
Of an ever-present help
And a God that just won't fail

If you're thinking
That my Father isn't capable of healing
Let me tell you
If you're thinking
That He isn't strong enough to solve your problems
Let me tell you

I know it for myself
And I know the story well
He's an ever-present help
With a love that just won't fail

If you're feeling
That you've drifted way too far and He can't reach you
Let me tell you
If you're feeling
That you're way too damaged for my God to use you
Let me tell you

I've seen it
I've lived it
I've witnessed
That He will come through
For you

I've seen it
I've lived it
I've witnessed
That He will come through
For you

Yeah, I've had some doubts myself
But the years have taught me well
There's no question that He's real
And I don't need nobody else

Yeah, I've seen it
Hey
I've lived it
I've witnessed
That He will come through
For you

I've seen it
I've seen it
I've lived it
I've lived it
I've witnessed
Seen it with my own eyes
That He will come through
For you

He did it
It's finished
It's finished
So trust Him
So trust Him
He will, yeah
I know He'll come through
It's all true

He did it
It's finished
It's finished
So trust Him
So trust Him
I know He'll come through
It's all true, yeah

It's all true
It's all true
He heals
It's all true
He delivers
I know He'll come through
It's all true

He's a providing God
It's all true
He is who He says He is
It's all true
It's all true
I know He'll come through
It's all true

Yeah, He's a good good Father
He's a Father to the fatherless (It's all true)
He's a good good friend
It's all true
Oh and He'll always be with you
I know He'll come through
It's all true

He never lies
And neither will I
I know He'll come through
It's all true

It's all true
It's not just stories anymore
It's not reading it on a page
No, we've seen it
Right in front of our face
It's not just stories anymore
Not just reading it on a page
I've seen it in front of my face
Seen it with my own eyes
Seen it with my own eyes
