

Forever Mistletoe

Jonathan McReynolds

Baby, it's cold outside
But I feel your warmth
When I look in your eyes
Yeah, they heed my soul
Do we need the fireplace?
Only if you want
'Cause we don't (we don't)

It's that time of year
But our love is all seasons
Yeah, it's just one day
But there ain't no reason
When tomorrow comes
That we have leave here
'Cause we don't, mm

Maybe this Christmas
We'll last forever if we make it so
We are the moment
It's a holiday anywhere we go

No, we don't have to wait for the right time or space
It's a lifetime embrace we found
This is our moment
We're under a forever mistletoe

And if you like
Buy me a gift and just find me more time with you
Hold you close in the living room
Make a year of an afternoon
Sometimes I wish
That we could have more than 24 hours today

But baby, this Christmas
We'll last forever if we make it so
We are the moment
It's a holiday anywhere we go

No, we don't have to wait for the right time or space
It's a lifetime embrace we found
This is our moment
We're under a forever mistletoe

No, we don't have to wait for the right time or space
It's a lifetime embrace we found
This is our moment
We're under a forever mistletoe

It's always our moment
I'll take my gift right now
We're under a forever mistletoe
