Make Room

Jonathan McReynolds

I find space for what I treasure
And I make time for what I want
I choose my priorities and
Jesus, You're my number one

So I will make room for You
I will prepare for two
So You don't feel that You
Can't live here, please live in me

I find space for what I treasure
And I make time for what I want
I choose my priorities and
Jesus, You're my number one
Yes Jesus, You're my number one

So I will make room for You
I will prepare for two
So You, You don't feel that You
Can't live here, please live in me

I will make room for You
I will (I will) prepare for two
So You (So You) don't feel that You
Can't live here, please live in me
Live in me, yeah
Please live in me, God
I will make room for You

My will (You can move that over)
My way (You can move that over, too)
My ego (You can move that over)
My plans (You can move that over, too)
My schedule (You can move that over)
My itinerary (You can move that over)
For see I, I will make room for You

My habits (You can move that over)
My attitude (You can move that over, too)
Whatever it is (You can move that over)
That's not like You (You can move that over, too)
Whatever it is (You can move that over)
You can move it over (You can move that over, too)
See I will make room, yeah

Whatever it is (You can move that over)
That's in Your way (You can move that over, too)
Whatever it is (You can move that over)
If it takes Your space (You can move that over, too)
See whatever it is (You can move that over)
Oh, I don't want it there (You can move that over, too)
See, I will make room, yeah

I wanna seek You first (You can move that over)
Keep the old things out the way (You can move that over, too)
I wanna seek You first (You can move that over)
Move it all out the way (You can move that over, too)

See, whatever it is (You can move that over)
Lord, I just want You (You can move that over, too)
So I will make room, yeah

See, whatever it is (You can move that over)
Move it over (You can move that over, too)
Please just move it over (You can move that over)
Help me move it over (You can move that over, too)
Jesus, I (You can move that over)
I just want You to know (You can move that over, too)
That I will make room

I find space for what I treasure
And I make time for what I want
I choose my priorities and
Jesus, You're my number one
