Smooth

Jonathan McReynolds

He's an on time God, yes He is
Ohhh
On time God, Yes He is
They say Job said
He may not come when you want Him
Hey, but I know He'll be there
Be there right on time
I tell you He's an
On time God
On time God
On time God (Yeah)
On time God

Pull up when I need Him to
Nothing that He wouldn't do
Knowing I don't have a lot
He can use whatever I got, mmhmm

Oh, He always got a plan, na
He don't never let it get too out of hand, na
And I know He's got the whole world in His hands, na
He be doing things that I don't understand

I've been in my word, He in His bag
Know that it's gon' work, that's a fact
God be on that smooth timing
Coming, coming through
I've been doing work in my bag
Know that it might hurt but it lasts
God be on that smooth timing
Coming, coming through right on time

Oh, Lord
When I need a light up on my path
Call Him from wherever I be at
Alpha, Omega, He the first and He the last
So I don't have to worry 'bout the past
No no no, I ain't got the password
He said that it's mine if I ask for it
Only moving forward, never backwards
Something's gonna change

I've been in my word, He in His bag
Know that it's gon' work, that's a fact
God be on that smooth timing
Coming, coming through
I've been doing work in my bag
Know that it might hurt but it lasts
'Cause God be on that smooth timing
Coming, coming through right on time
