

# I Was the One She Came For

Jonathan Richman

She could have had them all  
Wasn't I too tame for her  
That meteor?  
But I was the one she came for

I was all smoke and haze  
And then a flame for her  
That hurricane  
Hurricane, when she came for me  
Hurricane, when she came

She had power, she had soul  
And things they don't have a name for  
I had to ask myself  
Was I game for her?

I thought that I was through  
She thought that wasn't true  
Oh, she had things to do  
I was the one she came for  
Hurricane, when she came

She saw me on the fly  
She knew me with one eye  
I walked her 'round the block  
And nothing's been the same for me

I thought I'd seen a lot  
She proved that I had not  
And I needed what she brought  
And it was a hurricane when she came for me  
A hurricane when she came

I was the one she came for  
Hurricane, when she came

Hurricane, when she, hurricane, when she  
Hurricane when she came for me  
I was the one she, I was the one she  
I was the one she came for, yeah
