

My Little Girl's Got a Full Time Daddy Now

Jonathan Richman

Since she was born I loved her, but we were soon apart
She was closer to her mother from the start
I was happy enough strollin' her around
But it seemed like something was there tying me down

But gone are the days when I'd be reading while holdin' her on
my lap
The days when I'd get impatient for her to take her afternoon
nap
Gone are the days when I would leave as soon as her mother wou
ld allow
My little girl's got a full time daddy now

I've always been a good dad but not confident truth be told
Yeah but now, but now I come straight from my soul
If there is a problem we will figure it out somehow
My little girl's got a full time daddy now

Well she was closer to her mother and that's no crime
But not now, now she's got a daddy full time
It took her momma and me splittin for me to come into my own
But it was worth it for the way we are walking hand in hand ju
st fool along

Gone are the days when i would be next to her, thinking about
myself
Gone are days when I'd be frantic for her mom to come home and
help
Those days are gone, Those days are gone
Let every witness now avow
My little girl's got a full time daddy now
My little girl's got a full time daddy now.
